Summary

Computer Science undergraduate with expertise in Full-Stack Development, Machine Learning, and Cloud Technologies. Skilled in building scalable web applications using MERN Stack, ReactJS, and Firebase. Experienced in Generative AI, Data Analytics, and DSA. Demonstrated ability to deliver real-world solutions through internships, projects, and competitive programming.

Skills

Languages: C, C++, Python, JAVA, SQL	Cloud & Platforms: Firebase (Auth, Firestore, Hosting), Google Drive API, Google Auth; familiar with Google Cloud Platform.
Core Skills: Data Structures and Algorithms, DBMS, Computer Networks, RESTful APIs	AI/ML & Data Science: Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, Data Analysis, Model Training Deployment
Frontend: HTML5, CSS3, JavaScript, ReactJS, TailwindCSS, Bootstrap	Development Tools: Git, GitHub, CLI, Figma, Flutter, Tableau
Backend: NodeJs, ExpressJs, PassportJs, Clerk Auth, JWT, MongoDB, MySQL	

Experience

IBM PBEL Virtual Internship Program ([LINK](#))

Jul 2025 – Aug 2025

Intern (Project-Based Learning)

- Completed a virtual internship specializing in Generative AI, applying solutions to real-world inspired problems.
- Designed an AI-powered resume and cover letter generator using Python, Google Colab, and ReportLab, used by 20+ test users.
- Integrated Google Drive API and Google Auth, enabling secure PDF exports with a 100% success rate in testing.
- Enhanced content generation accuracy and streamlined the document creation process for end users.

Education

ABES Engineering College

Bachelor of Technology in Computer Science and Engineering

CGPA: 7.8 (up to the 5th semester)

Gaurs International School

Percentage: 91.7 in 10th and 81 in 12th

Projects

Zynk - Video Conferencing App ([PROJECT LINK](#))

Jul 2025 – Aug 2025

Tech Stack: NodeJs, ExpressJs, MongoDB, ReactJs, WebRTC, Socket.IO

- Enabled up to 10 participants per room with <200ms latency in local network conditions.
- Deployed key-features like live chat, room-based routing and peer-to-peer connections.
- Integrated WebRTC encryption and user authentication for secure communication.

WanderLust - Accommodation Booking Platform ([PROJECT LINK](#))

Apr 2025 – May 2025

Tech Stack: NodeJs, ExpressJs, MongoDB, EJS, PassportJs

- Developed a full-stack platform with secure login, property search, and listing filters.
- Optimized REST API and MongoDB queries, improving backend response time by approximately 30%.

AI Resume and Cover Letter Generator ([PROJECT LINK](#))

Jul 2025 – Aug 2025

Tech Stack: Python, Google Colab, ReportLab, Google Drive API, Google Auth

- Built an ATS-friendly resume and cover letter generator.
- Enabled secure PDF export and cloud storage integration.
- Simplified resume creation with user-friendly customization features.

Certifications and Achievements

Python Programming - GUVI - HCL ([LINK](#))

Problem Solving (Basic) - HackerRank ([LINK](#))

Data Analytics Virtual Job Simulation - Deloitte – Forage ([LINK](#))

Solved 400+ questions on coding platforms such as Leetcode, CodeForces, CodeChef, GeeksForGeeks and HackerRank.

Achieved 4-star rating on HackerRank.

Achieved a LeetCode rating of 1613 and a Codeforces rating of 954 (Newbie).
